

PRESS RELEASE

New Amore Tiles Bring to the Surface Patchwork & Stone Strip Patterns

The Amore new tile collection from Craven Dunnill offers a choice of fashionable patterned effects, in mellow natural tones. Ideal for creating a striking design element to walls and splashbacks, the Amore Yaras wall tiles feature repeating motifs in a grid format creating a six tile patchwork on just one tile, whilst the Amore Mureto tiles are made up of slim layers of stone-look strips. A third, more understated patterned option, is the Amore Mix Cube scored wall tile, which features subtle, repeating motifs with an embossed surface texture.

Amore is the latest trend-led tile range to be added to Craven Dunnill's Renaissance Collection. In addition to the Mix Cube, Mureto and Yaras patterned wall tiles, Amore includes contrasting plain field tiles, which are suited to both floors and walls.
