

NEWS RELEASE

Unique Digital Tile Mural Scoops Top Prize for Craven Dunnill

Craven Dunnill has been named best in class by the TTA for an exclusive tiled panel it designed and manufactured, using the latest digital technology. The Tile Association awarded Craven Dunnill top prize in the *Best Use of Tile in a Domestic Environment* category for its exclusive kitchen splashback.

The company designed, manufactured and arranged the installation of the 1650mm x 900mm ceramic glazed digital panel. The clients wanted to capture the romance of their wedding day and the kitchen mural depicts them riding to their wedding reception, across the local countryside.

Craven Dunnill offers a comprehensive mural design service, from conception to installation. It produces bespoke murals for a wide variety of internal and external applications, from small domestic splashbacks to large, public art works.

The company also won the top award in the *Floor Tile of the Year* category for its new Fusion glazed porcelain floor and wall tile collection. The range straddles the trend for stripped-back urban living with the practical desire for timeless style. The stone-look characteristics include elements of petrified wood and naturally metamorphosed sandstones. Fusion is offered in a comprehensive selection of sizes and formats in a unified 10mm thickness.

The TTA Awards took place 18th April 2015 at the St. John's Hotel & Conference Centre, Solihull.

Craven Dunnill is the leading distributor which supplies the trade via architects, designers, selected retailers, developers, specifiers, fitters and contractors. For further information T: 01746 761611
