

## Press Release

### New look mosaics for bathrooms and kitchens

A host of new mosaic wall tile ranges in an array of decorative finishes including shell, variable lustre glass, silk marble and polished chrome are set to transform the creative landscape of wall décor in bathrooms and kitchens. Craven Dunnill has more than doubled its mosaic collection to over 300 different designs, as homeowners become more adventurous and embrace the creative opportunities mosaics provide.

A few strips of distinctive mosaics can transform the plainest of field tiles into a chic, accent wall, mosaics can turn a practical basin splash-back or bath surround into an exotic feature, create a bijoux decorative element, in what otherwise would be a mundane bathroom, and introduce the attractive option of curvaceous shower walls – the possibilities are endless.
