

PRESS RELEASE

New Floor Series from Craven Dunnill Reflect Natural England

Sands tile collection has the exact appearance of natural English volcanic slate, similar to that quarried in the hills of the Lake District, but is in fact the latest porcelain floor tile series from Craven Dunnill's Renaissance Collection. Featuring distinctive slate markings and subtle shading, typical of the Lake District region, with a smooth honed finish, *Sands* has the appearance of slate but the practical benefits of porcelain, including fade resistance, durable wear characteristics and ease of maintenance.

Sands from Craven Dunnill's Renaissance Collection is available as 758 x 453mm floor tiles in four versatile colours: Dark Sand, Ivory Sand, Brown Sand and Grey Sand.

Wood-Ker is another new addition to the extensive Craven Dunnill tile collection and is the latest premium wood-effect glazed porcelain tile. The delicate detail of the surface pattern and shading achieve a highly realistic sawn wood-grain effect, revealing both cross cut and end grain characteristics of natural timber. Available in 1000 x 144mm 'planks', *Wood-Ker* is available in four colour options: Brown, Nut, Cream and a Grey particularly suited to the blue natural light typically experienced in the UK.

Craven Dunnill is an award winning distributor of ceramic floor and wall tiles and fully services both the retail and commercial sectors. For all sales enquiries please contact T: 01746 761611 www.cravendunnill.co.uk E: info@cravendunnill.co.uk
